LINE-BY-LINE INSTRUCTIONS

Additional Cigarette Manufacturers — There are Six cigarette manufacturers noted on the front of this form. If you store unstamped cigarettes for other manufacturers, you must prepare a supplemental schedule for those manufacturers providing the same information requested on the

CT-111 (Lines 1 through 7). The “total” column on your CT-111 must reflect activity for all the cigarette manufacturers covered by your report.

- Line 1. Beginning Inventory. In each column enter the inventory shown on Line 6 of your preceding month’s CT-111.
- Line 2. Receipts. Enter the total number of single cigarettes you received during the month from the various cigarette manufacturers (000’s should be omitted). It is not necessary to submit schedules detailing your receipts. However you are required to maintain records of receipts at your warehouse for examination by department personnel.
- Line 4. Shipments. Enter the total number of single cigarettes by manufacturer that you shipped during the month to cigarette distributors, military installations and veterans hospitals (000’s should be omitted). It is not necessary to submit schedules detailing your shipments. However you must keep records of shipments at your warehouse for review by department personnel.
- Line 6. Ending Physical Inventory. At the end of each month you must take a physical inventory of the unstamped cigarettes in your warehouse. Then, on Line 6 enter the total number of unstamped cigarettes you have on hand per manufacturer based on your physical inventory.
- Line 7. Inventory Discrepancies. If the number of cigarettes you enter on Lines 5 and 6 are not equal, you have an inventory discrepancy. To compute the amount of the discrepancy, subtract Line 6 from Line 5 in each column and enter the difference on Line 7. When Line 6 exceeds Line 5, put brackets () around the discrepancy amount on Line 7.
